Marine Engineering
Subject Guide
E-resources

Below is a list of the library’s electronic resources which are most useful for Marine Engineering. You can view a full list of the Library’s electronic resources by visiting this page: https://library.cityofglasgowcollege.ac.uk/finding-resources/e-resources

Your student network ID and password will log you on to most of these resources. Some resources will prompt you to select either UK Federation and/or Shibboleth login options, and then simply select the institution of the City of Glasgow College.

Box of Broadcasts
This service allows you to record TV and radio programmes over a seven-day period and watch archived programmes online. Covers all subject areas.

Credo Reference
An online reference service containing over 500 full-text books including a range of dictionaries and encyclopaedias.

IHS Technical Indexes
Access standards, regulations and related publications from professional associations, international and national standardization and regulatory bodies.

Regs4Ships
A searchable database that combines Flag State compliance documentation with IMO, ILO and EU legislation. Only available on-campus.
Useful websites

- **Engineering Council** - UK regulatory body for the engineering profession.

- **EngineeringUK** - Not-for-profit organisation, which works in partnership with the engineering community to promote the vital role of engineers and engineering to society.

- **Institute of Marine Engineering, Science and Technology (IMarEst)** - ImarEst is the first Institute to bring together marine engineers, scientists and technologists into the one international multi-disciplinary professional body. *You may have to register as a user to fully use the benefits of this site.*

- **International Maritime Organisation (IMO)** - IMO is the global standard-setting authority for the safety, security and environmental performance of international shipping. Its main role is to create a regulatory framework for the shipping industry that is fair and effective, universally adopted and universally implemented.

- **Legislation.gov.uk** - The official home of UK legislation, revised and as enacted 1267-present. This website is managed by The National Archives on behalf of HM Government.

- **Marine Accident Investigation Branch (MAIB)** - The Marine Accident Investigation Branch (MAIB) investigates both marine accidents on board UK ships worldwide and UK and other ships in UK territorial waters.

- **Maritime & Coastguard Agency (MCA)** - The Maritime and Coastguard Agency (MCA) produces legislation and guidance on maritime matters, and provides certification to seafarers.

- **Safari - Skills in Accessing, Finding & Reviewing Information** - A useful website provided by the Open University and designed to help you to improve your digital and information literacy skills.
E-books

The library provides access to various e-books relevant to **Marine Engineering**. You can read and download e-books through the Dawson e-book service via [www.dawsonera.com](http://www.dawsonera.com), and through the library catalogue at [http://library.cityofglasgowcollege.ac.uk](http://library.cityofglasgowcollege.ac.uk). If asked, you should choose the Shibboleth login option and confirm City of Glasgow College as the institution.

Books

You can find the majority of books relevant to **Marine Engineering** at the following numbers at **Riverside Library**. These numbers represent their location on the shelves:

- Maths 510
- Physics 530
- Applied Mechanics 620.1
- Engineering Drawing 621.815
- Engineering Materials 620.112
- Marine Electrics 621.3
- Applied Heat 621.4021
- Shipping (general) 623.8
- Naval Architecture 623.81
- Marine Engineering 623.87
- Diesel Engines 623.87236
- Safety at Sea 623.875
- Maritime Accidents 623.8754
- Marine Pollution 623.963
- Motor Technology 629.2

You can see which books we have available by searching the catalogue: [http://library.cityofglasgowcollege.ac.uk](http://library.cityofglasgowcollege.ac.uk)
Journals

Journals feature the most up-to-date information on subject areas (often more up-to-date than websites). If you want to find information about what is happening in your subject area at the moment, journals are a great source. The library provides the following relevant journals:

- Fairplay Magazine and Fairplay Solutions
- IMO News
- Marine Engineers Review
- Marine Propulsion & Auxiliary Machinery
- Naval Architect
- Offshore Engineer
- Safety at Sea
- Ship and Boat International
- Telegraph (Nautilus)
